Dear Leonard and Andre:

I accept! Certainly I accept the position of Information Director with the Migrant Clearinghouse and Information Center, if at all possible beginning November 1, 1973.

This position will enable me to work within my expertise in libraries, and Information Services and to continue the 3 years experience I have had working with Migrant populations. I feel that now I can contribute a great deal to the information needs encountered by Migrant Programs throughout the nation.

For this reason, I am looking forward very much to becoming a part of the program.

Salary is negotiable as long as I can expect a minimum level of \$ 12,000 annually because of the high living expenses in the Austin area. And the fact that in 1970, this was my professional salary level for the 13 years of experience I had then. By now I have accumulated 16 years of professional experience which I know will benefit both Juarez-Lincoln and our community.

Sincerely,

Martha P. Cotera
